

30 June 2026

FY2026 Coal Sales Update

TerraCom Limited (ASX: TER) (**TerraCom** or **Company**) refers to its ASX announcement dated 26 June 2026 titled "TerraCom Chairman Update to Shareholders", in which the Company advised that FY2026 coal sales from the Blair Athol Mine were expected to be approximately 1.52 million tonnes.

The Company now expects FY2026 coal sales of approximately 1.45 million tonnes.

The revised sales estimate reflects the deferral of the final coal shipment scheduled to load before 30 June 2026. A delay to a planned production blast over the weekend resulted in insufficient coal being available to complete loading before the end of the financial year.

The coal for the deferred shipment has largely been mined and is held in inventory. The shipment is expected to load in early July 2026 and will be recognised in FY2027 sales.

The Company's FY2027 planning remains unchanged from that outlined in its 26 June 2026 announcement and remains subject to Board approval.

This announcement has been approved by the Board for release.
